B.Tech in Computer Science & Engineering (AIML)

EDUCATION

LNCT University, Bhopal (2022-26)

Bachelor of Technology in Computer Science and Engineering (AIML) | CGPA: 8.21

Morning Star School, Ratlam (2022)

Senior Secondary

PROJECTS

AI Crop Disease Detection (Sept 2024)

- Developed a web-based AI system for detecting and managing crop diseases –
- Trained ML models to classify diseases and suggest treatments
- Building a web-based application for real-time analysis.

Deepfake Detection System (Jan 2025)

- Creating a deepfake detection model to identify manipulated media. –
- Leveraging deep learning techniques for accurate classification. –
- Developing a user-friendly interface for easy detection and reporting.

Animal Species Detection (Jun 2024)

- Building an AI-based system to detect and classify animal species. –
- Utilizing YOLOv8 and TensorFlow for real-time species identification. –
- Implementing a Streamlit-based web application for user interaction.

EXPERIENCE

Smart India Hackathon (SIH) Project (Sept – Nov2024)

Machine Learning Developer

- Developed AI-driven crop disease detection and management system. – Built and fine-tuned machine learning models for accurate disease identification. –
- Collaborated with the team to deploy models in a web application.

TECHNICAL SKILLS

Languages: Java, Python

ML/DL: Machine Learning, CNNs

Fundamentals: Data Structures (DSA), OOPS

Soft Skills: Problem Solving, Communication, Team Collaboration

CERTIFICATE

- Intro To Programming - Kaggle
- Introduction To Java - Coursera
- Programming In Java - NPTEL
